

March 28, 1984

LB 1034, 1078A, 970

is a good way to start the morning off. We don't need this A bill we found out. At one time this bill, of course, dealing with the Environment Control Council, thought we would have some work to do with the uranium mining. Yesterday we moved LB 742, Senator Scofield's bill. There is some relationship between these and we don't need the A bill. So, Mr. Clerk, the way my motion reads if they vote yes, the A bill is killed and not used.

CLERK: Right.

SENATOR KAHLE: Okay, so vote for the kill motion on LB 1078A.

PRESIDENT: Senator Scofield, do you have...are you asking for recognition? Very well. Is there further discussion? If not the motion of Senator...is before you of Senator Kahle to indefinitely postpone LB 1078A. All those in favor vote aye, opposed vote no. Have you all voted? Simple majority is sufficient. Have you all voted? The Clerk will record the vote.

CLERK: 25 ayes, 0 nays on the motion to indefinitely postpone LB 1078A, Mr. President.

PRESIDENT: The bill is postponed. We will take up Mother of the Year ceremonies at nine-fifty, thereabouts. We go on now to Select File, LB 970.

CLERK: Mr. President, right before that, if I may, a communication from the Governor to the Clerk. (Read communication regarding signing of LB 1034 as found on page 1950 of the Legislative Journal.)

Mr. President, 970, the first item I have with regards to the bill are E & R amendments.

PRESIDENT: Senator Rod Johnson.

SENATOR R. JOHNSON: Mr. President, I move we adopt the E & R amendments.
